

**On Monday, January 13<sup>th</sup>, 2003, the IEEE North Jersey Section Engineering Management and Computer Chapters will host a presentation on “Managing Emerging Technologies” by Joe Chizmarik.**

### **About the Talk**

Managing new technology is becoming more of a challenge as it requires not only integration with existing operations but also business process redesign from an enterprise perspective. However, the rewards of a new strategic infrastructure make it all worthwhile.

The presentation will cover the following:

- Survey of key business technology areas: XML, Web Services & Privacy
- Secure Computing & Communications Platforms
- Business Process Management, Six Sigma & ROI
- Knowledge Management / Business-on-a-Chip / Industry-on-a-Chip
- Conclusion

### **About the Speaker**

Mr. Joe Chizmarik, founder of The Knowledge Sculptors, an Information Technology consultancy, has served as the firm's President since its inception in 1988. Also known as 'BJ The Cyber DJ', Mr. Joe Chizmarik hosts his own broadcast and webcast edutainment radio talk show, 'Cyber On! America!' discussing the Internet and its social ramifications. Mr. Chizmarik also has been a panelist speaking on XML as well as on the Humanistic Uses of Technology. He is currently on the graduate faculty of the Management Department, Polytechnic University, NY, NY. Mr. Joe Chizmarik's honors include placement in The International Who's Who of Information Technology (1998-2003) and in the 'Who's Who Among Executives & Professionals, Millennium Edition.

### **All are welcome!**

You do not have to be a member of the IEEE to attend. Bring your friends. There will be a short Computer Chapter business meeting prior to the talk to elect new officers.

**Time:** 7:00 PM, Monday, January 13th, pre-meeting buffet at 6:00 PM, In the Public Meeting Room, Morris County Library.

**Place:** Public Meeting Room, Morris County Library, 30 E. Hanover Ave., Whippany, NJ, (973) 285-6930.

**Information:** Howard Leach (908) 540-1283, h.leach@ieee.org, or Wayne Owens, wowens@crestron.com
